Subject Comments to ORVAC members and ORVAC web site

Hello ORVAC members,

Upon review of the draft minutes of the April 27, 2011 ORVAC meeting located in the ORVAC web site document list under Reference Material for the 8 25 2011 meeting I have a suggestion regarding the Corn Dance Unit discussion part of the minutes.

During the meeting folks became very assertive that the trail plan not be considered exactly complete due to outstanding trail approval issues in Turner River and Corn Dance units. Increasing tension was evident during this part of the meeting.

Superintendent Pedro Ramos eventually entered this discussion and gave his assurance that future trail adjustments and additions pending approval would be allowed even though ORV's were going into the designated trail use ONLY phase of the plan implementation.

Superintendent Ramos's comment should be captured in these minutes in order to improve their thoroughness. I believe the Superintendent's assurance in the ORVAC record is now and could be very important in the future
